INVESTMENT DESCRIPTION

The Old Mutual Global Shari'ah Equity Portfolio offers investors exposure to a broad spectrum of Developed Market shares. The Portfolio is Shari'ah Compliant and excludes companies whose core business involves dealing in alcohol, gambling, non-halal foodstuffs or interest-bearing instruments.

The Portfolio adheres to the standards of the Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI) as interpreted by the Shari'ah Supervisory Board.

The Portfolio aims to outperform the benchmark over rolling three year periods, whilst seeking to reduce absolute portfolio volatility. Non-permissible income is calculated and removed on a daily basis and is deposited in the SA Muslim Charitable Trust..

INVESTMENT STRATEGY

The Portfolio is managed according to a Managed Volatility strategy, in conjunction with the principles of Shari'ah investing to achieve the final portfolio. This strategy strives to ensure a smoother return path for investors through opportunities created by the mispricing of risk. We follow an objective and systematic portfolio construction process.

The primary objective is to create a Portfolio with a lower total risk relative to the benchmark, while also providing market beating returns. We consistently tilt the Portfolio to selected alpha themes to enhance its return in all market environments. These themes are significantly independent and have the longest track record of outperformance within the global market.

The strategy will provide you with an alternative source of outperformance as well as a low correlation with other active equity strategies.

SUITABLE INVESTORS
